For me, I've not found that much to get excited about Cities Skylines, as many of the mods do not work or have become obsolete.. I've followed the examples on YouTube, but to no avail Like SimCity4, I've experienced crashes and many other problems, yet like a fool that I am, I upgraded the game to Snowfall, hoping that fortunes would change, only succeeding in dinting my wallet further! Even when trying to log into the Paradox site, I find I cannot do so, as my password is not recognised.. Verified purchase: Yes! Condition: New

It all must have something to do with age, good for youngsters, but a 'no no' for we older folk.. Lots of assets either do not load properly or have their add on's missing Many of the cheats are also ineffective.. However, I have tried several times to get a city up and running, and despite the claims that this is an easy game to attract citizens, the most I've ever managed to get is a populous of about 25,000, before everyone leaves the city in droves until no one is left. 34bbb28f04 [how to download a texture pack on mac](#)
