FAQ

A reinstall helps and then the problem starts again No obvious association with other apps running or not.

Does anyone have a workaround or information about the problem? Thanks in advance for any assistance/information.. Lego Mindstorms NXT 2 0 software is unstable on Yosemite While it installs with complaints and runs fine, it will soon (minutes to days) begin to crash immediately after starting.. The Lego Education site says that the SW will work on Windows and Macs except for Yosemite.
